HOPKINS' TRIAL!

Judge Sage Continues it and Cautions the Jury Not to Read Accounts About the Case.

CINCINNATI, Dec. 20.—Judge Sage today postponed the trial of Benj. E. Hopkins, of the late Fidelity National bank, until January 10, cautioning the jurors not to converse upon the subject and not to read newspaper statements about it. It is about understood that suit will be brought to set aside the appraisal made in May last for taxation on the ground that the bank did not at that time own so much taxable property as was listed for taxation.

KILRAIN-SMITH.

Points of Their Big Fight Yesterday in France—Richard K. Fox Talks.

NEW YORK, Dec. 20.—Richard K. Fox, this morning, sent the following message to Atkinson, the referee of the Smith-Kilrain fight: "The fight must be finished. If Smith refuses I shall claim the belt, the world's championship and stands for Kilrain." LONDON, Dec. 20.—The Sportsman says the contest between Smith and Kilrain was more of a wrestling match than a prize fight.

Kilrain and Smith fought 106 rounds on the island of St. Pierre, in the river Seine, France, the conflict resulting in a draw, owing to darkness. Time, two hours and thirty minutes. Kilrain had the best of the battle. The fight was remarkable for the persistent wrestling of the men. In the fourth round Smith was knocked nearly silly by a terrific mack on the ear. Though Smith had the worst of the falls, he fought splendidly under great difficulties, and was as fresh as Kilrain, when darkness stopped the fight, at 4:45.

In the 106th and last round, both were fighting as quickly as at the start, when Mr. Atkinson ordered an adjournment of the contest until the next day, amid loud cheers, the spectators being delighted with the pluck shown by both men. Just as the fighting ceased snow began to fall.

In Sullivan's opinion the fight was the gamiest witnessed in many years between two big men.

The central committee will seek advice from those present as to the best course to be followed in the campaign, and will be controlled doubtless by the general sentiment which it is supposed will find expression in the forenoon meeting, the delegates present favor a late state convention.

ADAMS EXPRESS COMPANY. Letter From the Assistant Foreman of the Delivery Department—A Subject in Which Thousands are Deeply Interested.

About five years ago I suffered from pain, full urination and great pain and weakness in the lower part of my back, pain in the limbs, had taste in the mouth, disgust at food, and great mental and bodily depression. I live at 241 York street, Jersey City, and on arriving home one night I found a copy of the Shaker Almanac that had been left during the day. I read the article, "What is this Disease that is Called Catarrh of the Bladder?" and my symptoms and feeling better than I could find had written a whole book. My trouble was indeed "like a thief in the night," for it had been stealing upon me unawares for years. I sent for a bottle of Shaker Extract of Roots, or Serravallo's Syrup, and before I had taken one-half of it I felt the welcome relief. In a few weeks I was like my old self. I enjoyed and digested my food. My kidneys soon recovered tone and strength, and the urinary troubles vanished. I was well.

Millions of people need some medicine simply to act on the bowels. To them I commend Shaker Extract in the strongest possible terms. It is the gentlest, pleasantest, safest and surest purgative in the world. The most delicate women and children may take it. In this medicine because it is prepared by the Shakers. I may claim to be a religious man myself and I admire the Shakers for their zeal, consistency and strict business integrity. What they make may be trusted by the public.

MINNEAPOLIS claims to have the most rapid type in the country, averaging 14,428 ems per night. His name is Miln, and he is from Sioux City.

A POLITICAL party does not often command such practical service as the English Liberal organization secured from the late Baron Wolverton, whose fortune, it is reported by cable, exceeds £7,000,000. This nobleman on one occasion placed in the hands of the Liberal General Election Committee a sum equal to \$200,000 for campaign expenses. He was continually giving for such purposes, and there is a report that he had expressed his willingness to expend \$500,000 for Liberal uses in the next general election.

"TONY" JAMES, a colored waiter who died in Newark, N. J., was for thirty years a barber on the New York and Alabama Steamboats. During this time he shaved Webster, Clay, Gen. Scott, Millard Fillmore, and all the Governors of New York. He also shaved Louis Kossuth and brushed the hair of the Prince of Wales. James Matthews, the colored lawyer of Albany, who was nominated by President Cleveland for Register of the District of Columbia, was "Tony's" adopted son and was educated at his expense.

AN attack on a military train by Arabs in the performance of the hippodrome at Olympia is a remarkable feature. A line of railway runs round the arena, upon which an undoubted locomotive with carriages steam along at considerable speed. The train is filled with French troops, who respond to the fire of the Arabs, and an animated contest is carried on for some time. Finally the Arabs are defeated, and the wounded are carried to the ambulance car of the train, and the locomotive gets up steam and runs out of the arena. There is a pleasing dance by Arab girls and military exercises by the men of the desert.

THE Rev. C. E. Cine writes to the *Central Christian Advocate* that three years ago the parsonage at Emmetsburg, Ia., was struck by lightning, and he was hit in the breast by a large piece of plastering knocked from the ceiling. Instantly after being struck he saw "a great multitude of the most beautiful children running toward him and waving their hands and shouting greetings of joy." He felt no pain whatever, and wondered where he was. Soon he came to himself and found his wife and children weeping over him, thinking he was dead. He was not seriously hurt. He says that he shall go down to his grave believing that that night he entered Heaven.

In a little basin of the Alps, 7,700 feet above sea-level and five miles from the end of the great Aletsch glacier, is the unique little lake known as the Marjalén Sea. This is fed by mountain streamlets, its waters being held back by the ice of the great glacier itself. An English geologist mentions having seen it in 1868 as a body of water 300 yards wide and three times as long, with a maximum depth of ninety-seven feet. But the next day it had vanished. The ice-dam had yielded sufficiently to allow the pent-up water to escape beneath the glacier and plunge into the valley below, devastating the fields and considerably raising the level of the Rhone. These discharges take place at irregular intervals, though reputed to occur every seven years. The latest outbreak was in September last, since when it has been proposed to lessen future damages by providing an artificial outlet to reduce the lake's capacity one-half.

ONE of the most extraordinary cases that have ever come up before the Supreme Court of the Dominion has just been argued in Ottawa, and is likely to be carried to the Imperial Privy Council of Great Britain, the highest tribunal in the realm, before it is finally disposed of. It involves the question of right of the Roman Catholic Church to exact or collect fines from members of the congregation who have failed to conform to the rules of the church. The case at issue is that of Poitras vs. Lebeau. The suit arose out of the refusal of the appellant to kneel on both knees during high mass in the Church of Ste. Anne du Bout de l'Isle, near Montreal. The action for \$2,000 was brought against the respondent for having instigated proceedings charging the appellant with having committed in said church an irreverent act, for which he (the appellant) had to pay the sum of \$8.20 penalty. The case was tried by a jury, and a verdict was rendered in favor of the respondent. This verdict was moved against before the Court of Review, when a new trial was granted on the ground that the evidence was contradictory and that the plaintiff had suffered damage. The Court of Appeal reversed this judgment and confirmed the verdict. Appeal was then made to the Supreme Court.

JOHN AHLERS,
A Moulder in the Bass Works, Loses His Reason—His Strange Actions.

John Ahlers is a moulder in the Bass foundry and machine works. He is a married man and lives on Broadway and bears the reputation among the men in the works of being a quiet, peaceful, sober and industrious employee. He was acting just the least bit queer yesterday, but when he appeared in the moulding room this morning his actions convinced his fellow workmen that he was demented.

He stood around among the car wheels where he was accustomed to work, talking and singing to himself in German. With a tragic attitude and uplifted hand he would stand first over one car wheel and then over another and mutter continually this sentence in German: "That'll stay now for the next three years, and that'll stay for the next twelve years," and then raising his hand again to heaven, he would mumble some sort of a vow or oath in a dramatic manner, the words of which those standing near were unable to understand.

He did no work at all, but was continually moving about among the wheels muttering those strange words to himself, and his foreman and others found it impossible to make him answer questions or repeat anything else but the words mentioned above. It was evident to every one that the man was crazy and Officer Limecooley was sent for, who, with the assistance of some of the men in the works, took the unfortunate man to the county jail.

A PROJECT is on foot to form a vast Russian company to buy up all the iron works established by German capitalists in Poland. It is said that the Russian Government looks upon this project with great favor, and that the Bank of St. Petersburg has already promised to support it. The purchase price would be paid partly in money and partly in shares of the new company's issue, but the concern would be managed in accordance with the Russian laws and by Russian subjects. The establishments near the frontier would be at once enlarged by the addition of blast furnaces, so that the works would be independent of foreign countries as regards the raw material.

Wrong

To imagine that the treatment of Constipation consists merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after its use greater costiveness. This is what Simmons Liver Regulator always does.

"As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the stomach and bowels."—W. J. McElroy, Macon, Ga.

Believe us, when we tell you that most of the despondent feeling (the blues) is the effect of a Torpid Liver, Indigestion, Weakness of Stomach, and Nervousness. A dose of Simmons Liver Regulator invariably relieves, cures and prevents a re-occurrence.

"I find Simmons Liver Regulator, very safe, harmless and valuable as a family medicine, and have used it for any disorder of the system and have found it to act like charm, and I believe that if it was used in time, it would prove a great preventive of sickness. I have often recommended it to my friends, and shall continue to do so."—Rev. J. M. BOLLINS, Fairfield, Va.

Simmons Liver Regulator is given with safety and with the happiest results, in almost any ailment, to the most delicate infant as well as to the adult. For all diseases in which a laxative, alternative, or purgative is needed, it will give the most perfect satisfaction. It is the cheapest, purest and best Family Medicine in the world.

Price \$1. Sold by all Druggists. Prepared by J. E. ZIEGLER & Co., Philadelphia, Pa.

The treatment of many thousands of cases of the chronic weakness and distressing ailments peculiar to females, at the Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outcome of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the most approved and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked and worn-out "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and is perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhoea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, female weakness, antevulsion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce the most beneficial results, equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, under a positive guarantee, from the manufacturer, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) \$1.00, or six bottles for \$5.00.

For large, illustrated Treatise on Diseases of Women (40 pages, paper-covered), send ten cents in stamps.

TUESDAY'S TALK.

It May Not be Very Startling, But It is the News of the Day as Gathered.

The railroads are quiet and dull. The Wabash shops will turn out a new locomotive engine this week.

W. H. Dornte, of New Haven, has taken a position in the Wabash yards.

Will Noble, the clerk at the Bass works, now has the air of a married man. J. W. Salle, of Hoffman Bros., has returned from a business trip through the west.

The Jenney Electric Light works make a large shipment of goods to New Orleans this week.

Superintendent Stevens and Division Freight Agent Osborn, of the Wabash, were in the city yesterday.

Charley Laehlan, a brakeman on the Grand Rapids, after a sickness of some time, is able to be out again.

The Wabash gives notice that after December 31 all regular rates, except tariff rates, will cease to be in force.

Mr. George Evans, the secretary of the Hoosier Manufacturing company, went to Indianapolis this morning on business.

J. C. Matsch, the foreman in the cleaning room of the Bass foundry, has recovered from his sickness and gone to work again.

It is reported that one of the brakemen on the Nickel Plate will be married to a young lady from New Haven on New Year's day.

The machine shops of the Bass foundry have their own engine now. It runs the machinery in that department and the boiler works also.

William Everhardt, of the Bass moulding rooms, who has been off duty for a few days on account of sickness, returned to work again this morning.

J. A. Prentice has been appointed chief track master on the Lake Shore road between Toledo and Elkhart, in place of Jerry Anson, who has resigned.

George Mosher, an engineer on the Grand Rapids road, is suffering from a sprained foot which he injured a few days ago while alighting from his engine.

Frankie Finke, one of the foremen in the Bass foundry, was elected an officer in the Catholic Knights at their last meeting. Frank is popular in the works.

Ohas. W. Cook, the agent of the railroad offices at New Haven, gets to Fort Wayne frequently. Charley is a popular railroad man and has many friends in this city.

The employees of the Kerr Murray foundry, who have been off duty for a few days on account of the taking of an inventory in the works, went to work again this morning.

The Brown engine in the Pittsburg car shops has been placed in position, but is not working yet, owing to the non-arrival of some shafting and belting which is expected every day.

Thomas McGrath, of Toledo, has a new patent automatically adjustable railway crossing. The new invention gives a continuous rail which is automatically opened by the flange of the wheels of the cars as they pass over it and closes again after it passes over.

A large number of men who have been working in the railroad shops of the Mackinaw road at Van Wert, O., have been moved to Marshall, Mich. The company may take their shops from Van Wert altogether and remove them to Marshall, as that town has given them large donations.

The crazy man, John Ahlers, whose actions and sudden insanity are mentioned elsewhere, created considerable excitement this morning among the men in the moulding rooms, under the charge of Foreman Robert Cran. They stood around in groups watching his curious antics and it was not until Officer Lime-cooly took the man away that they resumed their customary work.

Mr. T. R. Pickard, the superintendent of the Bass foundry and machine works, informs THE SENTINEL reporter that every department of the great Bass works is still rushed with work. During the summer a number of improvements and additions have been made to their extensive buildings, including the large moulding room in which two or three hundred men can be employed, and yet they seem to be about as crowded as they were before the building was erected. The coming of winter seems not to have diminished the amount of work done, or the number of men employed, and Mr. Pickard thinks they will continue to furnish employment to their present force during all the winter and with the opening of spring be enabled to give employment to a number more.

The Bass works employ over a thousand men and it certainly ought to be a cheering thought to everyone to know that this large number of men will be able to earn good wages during the coming winter, as it is not only a benefit to them and their families, but also to the business interests of the whole city.

The Safest Medicine To have about the house at all times is Simmons Liver Regulator. It will harm no one. It will benefit all who may have attacks of Biliousness, Dyspepsia, Head-ache, Constipation, or other ailments resulting from a disordered Liver or Stomach. Keep it always in the house, and you will have a family physician near who will save you many dollars and much suffering. The genuine always has on the wrapper the red Z Trade mark and Signature of J. H. Ziehl & Co.

The Babies Cry for It And the old folks laugh when they find that the pleasant California liquid fruit remedy, Syrup of Figs, is more easily taken and more beneficial in its action than bitter, nauseous medicines. It strengthens the liver, kidneys, stomach, and bowels, while it arouses them to a healthy activity. For sale by Thielme & Gross.

Reduced rates for the holidays over the Wabash railway. One fare for the round trip between all stations. Tickets will be sold December 24th, 25th and 26th, December 31st and January 1st and 2d, good going on date of sale, and good to return up to and including January 3d, 1888. DAMAGE SUITS.

Two of Them For \$10,000 Each on Trial—A Maiden's Wrongs Are Righted.

This morning, before Judge Edward O'Rourke and a jury, began the trial of the suit of Catherine Stegmeyer against the Pennsylvania railroad company. Wm. Stegmeyer was run over and killed by the limited express at the Hanna street crossing, in March, 1888. Mrs. Stegmeyer sues for \$10,000 because of the casualty, which, it is alleged, resulted from carelessness and neglect.

The circuit court jury this morning announced a verdict declaring that Lewis E. Kuntz is the papa of Maud Stuck's baby child and Judge O'Rourke will fix the penalty on the unfaithful lover. The young people live out on the Bluffton road and ought to heal their differences with matrimonial balm. It would be a nice Christmas celebration.

The case of Voight vs. the Bickford furniture company is on trial at Albion, Ind. Mr. Voight lost an arm while employed by the Bickford company, in this city, and sues for \$10,000 damages. Messrs. Frank Rawles, Will Vesey and O. N. Heaton, with about twenty witnesses went up to Albion this morning to attend the trial.

KILRAIN-SMITH.

Points of Their Big Fight Yesterday
in France—Richard K.
Fox Talks.

New York, Dec. 20.—Richard K.
Fox, this morning, sent the following
message to Atkinson, the referee of
the Smith-Kilrain fight: "The fight
must be finished. If Smith refuses I
shall claim the belt, the world's cham-
pionship and stands for Kilrain."

London, Dec. 20.—The *Sportsman*
says the contest between Smith and Kil-
rain was a mere of a wrestling match than
a prize fight.

Kilrain and Smith fought 106 rounds
on the island of St. Pierre, in the river
Seine, France, the contest resulting in a
draw, owing to darkness. Time, two
hours and thirty minutes. Kilrain had
the best of the battle. The fight was re-
markable for the persistent wrestling of
the men. In the fourth round Smith
was knocked nearly silly by a terrific
smack on the ear. Though Smith had
the worst of the falls, he fought splen-
dently under great difficulties, and was as
fresh as Kilrain, when darkness stopped
the fight, at 4:15.

In the 106th and last round, both
were fighting as quickly as at the start,
when Mr. Atkinson ordered an adjourn-
ment of the contest until the next day,
amid loud cheers, the spectators being
delighted with the pinch shown by both
men. Just as the fighting ceased snow
began to fall.

In Sullivan's opinion the fight was the
greatest witnessed in many years be-
tween big men.

The Indiana Republicans.

INDIANAPOLIS, Dec. 20.—The repub-
lican state central committee issued a
call for a conference of republicans to-

and the state central committee, together
with representative republicans, are par-
ticipating.

The meeting is preliminary to the
meeting to-night of the state central
committee, whereas a time for the state
convention, methods of selecting dele-
gates, and other matters pertaining to
the great campaign which is pending will
be agreed upon. It is expected that Gen.
Harrison, ex-Gov. Porter, Col. Robert-
son, ex-Speaker Sayre and others will be
called on for brief addresses, but no pro-
gram, it is given out, has been arranged.

The central committee will seek ad-
vice from those present as to the best
course to be followed in the campaign,
and will be controlled doubtless by the
general sentiment which it is supposed
will find expression in the forenoon meet-
ing, the delegates present favor a late
state convention.

MINNEAPOLIS claims to have the most rapid type in the country, averaging 14,125 ems per night. His name is Nilsa, and he is from Sioux City.

A political party does not often command such practical service as the English Liberal organization secured from the late Baron Wolverton, whose fortune, it is reported by cable, exceeds £7,000,000. This nobleman on one occasion placed in the hands of the Liberal General Election Committee a sum equal to \$200,000 for campaign expenses. He was continually giving for such purposes, and there is a report that he had expressed his willingness to expend \$500,000 for Liberal uses in the next general election.

"TONY" JAMES, a colored waiter who died in Newark, N. J., was for thirty years a barber on the New York and Alabama Steamboats. During this time he shaved Webster, Clay, Gen. Scott, Millard Fillmore, and all the Governors of New York. He also shaved Louis Kossuth and brushed the hair of the Prince of Wales. James Matthews, the colored lawyer of Albany, who was nominated by President Cleveland for Register of the District of Columbia, was "Tony's" adopted son and was educated at his expense.

AN attack on a military train by Arabs in the performance of the hippodrome at Olympia is a remarkable feature. A line of railway runs round the arena, upon which an undoubted locomotive with carriages steam along at considerable speed. The train is filled with French troops, who respond to the fire of the Arabs, and an animated contest is carried on for some time. Finally the Arabs are defeated, and the wounded are carried to the ambulance car of the train, and the locomotive gets up steam and runs out of the arena. There is a pleasing dance by Arab girls and military exercises by the men of the desert.

THE Rev. C. F. Cline writes to the Central Christian Advocate that three years ago the personage at Emmetsburg, Ia., was struck by lightning, and he was hit in the breast by a large piece of plastering knocked from the ceiling. Instantly after being struck he saw "a great multitude of the most beautiful children running toward him and waving their hands and shouting greetings of joy." He felt no pain whatever, and wondered where he was. Soon he came to himself and found his wife and children weeping over him, thinking he was dead. He was not seriously hurt. He says that he shall go down to his grave believing that that night he entered Heaven.

IN a little basin of the Alps, 7,700 feet above sea-level and five miles from the end of the great Aletsch glacier, is the unique little lake known as the Marijen Sea. This is fed by mountain streamlets, its waters being held back by the ice of the great glacier itself. An English geologist mentions having seen it in 1864 as a body of water 300 yards wide and three times as long, with a maximum depth of ninety-seven feet. But the next day it had vanished. The ice-dam had yielded sufficiently to allow the pent-up water to escape beneath the glacier and plunge into the valley below, devastating the fields and considerably raising the level of the Rhone. These discharges take place at irregular intervals, though reputed to occur every seven years. The latest outbreak was in September last, since when it has been proposed to lessen future damages by providing an artificial outlet to reduce the lake's capacity one-half.

ONE of the most extraordinary cases that have ever come up before the Supreme Court of the Dominion has just been argued in Ottawa, and is likely to be carried to the Imperial Privy Council of Great Britain, the highest tribunal in the realm, before it is finally disposed of. It involves the question of right of the Roman Catholic Church to exact or collect fines from members of the congregation who have failed to conform to the rules of the church. The case at issue is that of *Potras v. Leleux*. The suit arose out of the refusal of the appellant to kneel on both knees during high mass in the church of St. Anne du Mont de Hile, near Montreal. The action for \$2,000 was brought against the respondent for having instigated proceedings charging the appellant with having committed in said church an irreverent act, for which he (the appellant) had to pay the sum of \$200 penalty. The case was tried by a jury, and a verdict was rendered in favor of the respondent. This verdict was moved against before the Court of Appeal, when a new trial was granted on the ground that the evidence was contradictory and that the plaintiff had suffered damage. The Court of Appeal reversed this judgment and confirmed the verdict. Appeal was then made to the Supreme Court.

JOHN AHLERS.

A Moulder in the Bass Works, Leese His Reason—His Strange Actions.

John Ahlers is a moulder in the Bass foundry and machine works. He is a married man and lives on Broadway and bears the reputation among the men in the works of being a quiet, peaceful, sober and industrious employee. He was acting just the least bit queer yesterday, but when he appeared in the moulding room this morning his actions convinced his fellow workmen that he was demoralized.

He stood around among the car wheels where he was accustomed to work, talking and singing to himself in German. With a tragic attitude and uplifted hand he would stand first over one car wheel and then over another and mutter continually this sentence in German: "That'll stay now for the next twelve years," and then raising his hand again to heaven, he would mumble some sort of a vow or oath in a dramatic manner, the words of which those standing near were unable to understand.

He did not work at all, but was continually moving about among the wheels muttering those strange words to himself, and his foreman and others found it impossible to make him answer questions or repeat anything else but the words mentioned above. It was evident to every one that the man was crazy and Officer Limecooley was sent for, who, with the assistance of some of the men in the works, took the unfortunate man to the county jail.

"Who shall decide when doctors disagree?" Why if it is a case of dot or bruise, or break, or sprain, Salvation Oil will settle matters for 25 cents.

Hissing Noises

Id the ears, sometimes a roaring, buzzing sound, are caused by catarrh, that exceedingly disagreeable and very common disease. Loss of smell or hearing also result from catarrh. A PROJECT is on foot to form a vast Russian company to buy up all the iron works established by German capitalists in Poland. It is said that the Russian Government looks upon this project with great favor, and that the Bank of St. Petersburg has already promised to support it. The purchase price would be paid partly in money and partly in shares of the new company's issue, but the concern would be managed in accordance with the Russian laws and by Russian subjects. The establishments near the frontier would be at once enlarged by the addition of blast furnaces, so that the works would be independent of foreign countries as regards the raw material.
